

SNAP Software Update Instructions

- You may need "Admin" rights to the computer where you are updating SNAP.
 - If you do not have "Admin rights", it will be necessary to have someone from your IT department assist you.
- The ZIP File "updatesnap.zip", contains the files needed to update your SNAP application.
- There are individual files and a file folder within the zip file. The number of files and the file names may be slightly different than those shown below.
- Copy the individual files, as shown in blue, and past them to C:\Program Files (x86)\SNAP. Overwrite the existing files when prompted.
